DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to electroprocessed collagen.

Group II, claim(s) 9-12, drawn to engineered tissue.

Group III, claim(s) 13-17, drawn to construct.

Group IV, claim(s) 18-19, drawn to a method of delivery.

Group V, claim(s) 20-23, drawn to a method of manufacture.

Group VI, claim(s) 24, drawn to a method of evaluating.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common special technical feature of "electroprocessed collagen" does not define a contribution over the prior art of 5709934 (column 6, lines 31-39).

A telephone call was made to John K. McDonald, Ph.D. on 9/10/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3738

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
